

Cicero Creek Tipton County, Indiana

Client: City of Tipton
Contact: New Administration

Year: 2003
Project: Cicero Creek Stream Bank Stabilization
Project Type: Design / Build

Williams Creek provided design/build services to complete approximately 500 linear feet of severe stream bank stabilization within Tipton County. The purpose of the project was to provide sedimentation control and improve downstream water quality. The project was funded by Eli Lilly Endowment to highlight the use of bioengineering techniques. The stream bank stabilization consisted of Williams Creek providing the following services:

- Design
- Permit Obtainment
- Earthwork
- Rockwork
- Vegetated gabion basket installation
- Soil compacted lift installation
- Erosion control blankets
- Native herbaceous plant and tree installation
- Native seed installation
