

## Genco Warehouse madison county, indiana

Client: First Industrial  
Contact: Mr. Jason Steinhauer

Year: 2007  
Project: Genco Wetland Mitigation  
Project Type: Design / Build

Williams Creek Management assists clients with various wetland recovery projects to preserve and restore wetland benefits by re-establishing natural ecological processes. Williams Creek Management provides professional wetland restoration/mitigation services including site preparation, plant preparation, installation, maintenance, and continuous adaptive management. Williams Creek Management minimizes the temporary impacts that may occur during construction and uses methods that create the least disturbance possible.

Williams Creek Management provided specialty construction services to install an isolated wetland mitigation in Madison County, Indiana. Services included:

- Field Staking
- Earthwork
- Dewatering
- Installation of 25,500 square feet of basic prairie seed mix
- Installation of 33,100 square feet of emergent seed mix
- Installation of 640 square yards of erosion control blankets
- Installation of 1380 plugs
- Installation of 6 native trees
- Installation of 180 native shrubs
- Installation of 4 wetland mitigation signs
