

Longridge Estates Subdivision hamilton county, indiana

Client: Platinum Properties
Contact: Mr. Steve Broermann

Year: 2008
Project: Longridge Stream Mitigation/Restoration
Project Type: Installation

Williams Creek Management understands that mitigation/restoration is essential to recover ecosystems that have been degraded or destroyed. Williams Creek Management assists clients with various stream recovery projects to preserve and restore stream benefits by re-establishing natural ecological processes. Williams Creek Management provides professional stream mitigation/restoration services including site preparation, plant preparation, installation, maintenance, and continuous adaptive management. Williams Creek Management minimizes the temporary impacts that may occur during construction and uses methods that create the least disturbance possible.

Williams Creek Management provided specialty installation services at Longridge Estates in Hamilton County, Indiana. Services included:

- Mitigation sign installation
- Installation of 55,250 square feet of basic prairie seed mix
- Installation of 10,100 square feet of wet meadow seed mix
- Installation of 250 - 1 gallon native trees
- Installation of 20 - 2" caliper native trees
- Installation of 4,320 square yards of erosion control blankets
