

# Loon Lake

columbia city, indiana

Client: Loon Lake Property Owner Association  
Contact: Mr. Matt Buchanan

Year: 2006  
Project: Loon Lake Stormwater GI BMP  
Project Type: Design / Build

Williams Creek Management provided design/build services to eradicate invasive species along a swale inlet at Loon Lake in northern Indiana. The project utilized funding through the Indiana Lakes Management Society grant program to improve lake shore habitat and create a demonstration project of water quality improvement for lake residents. Specific services provided include:

- Herbicide application service
- Removal of all existing vegetation and invasive species
- Installation of 2,045 native wetland plugs
