

RAVINA PARK BOWMAN CREEK BANK STABILIZATION

Total Project Delivery: Construction

OWNER: City of South Bend Venues Parks & Art

CLIENT: City of South Bend Venues Parks & Art

LOCATION: South Bend, Indiana

YEAR: 2018

Ravina Park is located in a residential neighborhood on the southeast side of South Bend. Running directly through the park is Bowman Creek, which had been the victim of decades of neglect. We partnered with the City of South Bend and local neighborhood groups to transform this once-forgotten waterway into a valuable and publicly accessible community asset.

The Bowman Creek bank stabilization project required the use of A-Jacks, a Toe Wood Structure, Soil Lifts, Log Retention, Rock Weirs, Coir Blanket, Live Stakes, Whips, and Native Seeding.

Market Served: Government (Parks & Recreation)
